ASU "Impact Award" Review Member:

This reference letter is provided on behalf of Ms. Shea Lisak for the 2025 ASU Impact Award consideration.

Ms. Lisak was a past student assistant of mine in ASU's AMT489 "Airline Administration" Class. As Shea's instructor and industry mentor, I would rate her overall performance as outstanding. This recommendation is supported by her attention to detail overseeing the course simulation program and her willingness to assist and mentor her under classmen.

In addition to being Shea's professor at ASU, I am currently an Aviation Safety Inspector with the FAA. I believe my interactions with Shea; both as an instructor and industry peer give me a unique perspective of her character.

Ms. Lisak has a positive attitude and a genuine interest in aviation which I believe are key elements for success in this crazy industry.

I support and highly recommend that you consider Ms. Shea Lisak's application for the 2025 ASU Impact Award, as she will be a great ambassador to the future of aviation.

Should you require additional information, please do not hesitate to contact me.

Respectfully submitted,

Captain Ed Faith

Associate Professor – ASU Poly Tech

Aviation Safety Inspector – FAA
